be most affectively smeared on the hot-water pipes and other heating surfaces of the house where it cannot possibly take fire, as the fumes of burning sulphur are fatal to plants. Occasional treatment will prevent mildew. Damping-off is a fungus disease prevalent Scurrilous remarks about the British flag amongst seedlings and cuttings. The stems drove one of James Larkin's supporters from become brown and contracted near the surhis side at a meeting in Sackville-street, Dub- face of the soil, and in a short time rot and lin, on Sunday, held to protest against the fall over. The trouble is augmented by a close, moist atmosphere, by crowding, and by injudicious and careless watering. The sudden application of too much water to cuttings actually suffering from dryness of the roots is a prolific cause of damping-off. At the first appearance of the disease, the surface-soil must be dried, air admitted, and the seedlings

head, Kirkburton, near Huddersfield, celebrated Robert Ball. The stipend is £800 a year and his 100th birthday on Tuesday and received a fees.

Dr. F. Arthur Sibly, in his presidential Rev. Arthur Mulock Bewley, son of Lord address to the Private Schools' Association, Bewley, fell from his bicycle while cycling said that the danger which arose from infrom Hindhead to Haslemere. He was found dustrial competition was a source of some to be bleeding profusely, and he died before anxiety to most workers, but he thought there

medical aid arrived. It is believed that he was no man in England except the private schoolmaster who need fear the worst unless

he was himself negligent. The private echoolmaster might be a model in private, professional, and civic life, and yet lose at any time not only his entire income, but all that a frugal and industrious life had enabled him to save. It was a disgrace to our country that this state of things should be possible.
