Smith notched four of the Wanderers' goals.

By winning three of their last four games Manchester City have considerably improved their prospects. They have moved buly one place higher in the table, but, as there are eight clubs no more than three points better off than they are, it is certain that they wall make greater advances provided they mains tain the form shown against Sheffield United. The score was only two roals to one in their favour, but a much bigger margin would better have represented the character of the game. # Public Opinion.

ONSENSUS of public opinion points very clearly to the new Daimler "20" as being most distinctly the car of the year for 1914. Original in its design, it embodies strength with lightness, and power with silence to a degree that surpasses any previous attainments in a car of this class. In fine, it is the unsurpassable machine, and ideally suited to the requirements of those who want an open touring car or a landaulette.
